TO SAVE THE WORLD'S FAIR.

President Francis Appeals Urgently for Reduced Railroad Fares.

CHICAGO, Aug. 6.—In response to an urgent plea to the managers of the Western railroads, made by President Francis of the Louisiana Purchase Exposition, in which he contrasted the attendance of the St. Louis and Chicago fairs and talked of the danger of a receivership for the big St. Louis show, the Chicago and Alton, the Illinois Central and the Chicago, Peoria and St. Louis railroads gave notice to the Western Passenger Association today that they would begin at once running daily coach excursions to St. Louis at greatly reduced rates from all places within 160 miles of St. Louis.

President Francis's letter to the railroads is said to have put the attendance in the first three months of the fair at about 5,000,000 persons, whereas the attendance during the first three months of the Chicago fair was about

9,000,000. He said that nine-tenths of the attendance at the Chicago fair came from within 150 miles of Chicago, and asked the Western roads to make inducements such that people around St. Louis would go to the fair at once.

LIFE GLOBE A SUCCESS.

Three Men Who Tested It in the North Sea Picked Up.

AMSTERDAM, Aug. 6.—A fishing vessel brought into Ymuiden today the Doenig life-saving globe, with three men in it, which was put overboard from a steamer in the North Sea yesterday. After the globe was put in the sea it drifted toward the coast of Holland, but those in it, fearing that it would change its course and drift to sea, decided to land.

They say the globe behaved excellently, and that the test was very successful. The globe will prove a very valuable addition to life-saving devices.
